Louisburg College opened the Tar River Center for History and Culture in 2013. The TRCHC works with local governments, private organizations, educational institutions, and individuals to develop the Upper Tar River region's historical and cultural assets, to foster economic development, and to promote knowledge of the past. Accomplishments to date include: an ongoing lecture series; a column in The Franklin Times, "Tar River Roots"; research assistance provided to the Ben Franklin Society and other organizations; the erection of a Civil War Trails Marker on the campus of Louisburg College; and the development of a walking tour brochure for the Louisburg Historic District.

In 2015 the TRCHC worked with retired school personnel to develop lesson plans pertaining to Franklin County history for use in the public schools and completed an oral history project on the desegregation of the Franklin County schools.
