2019 GRIST MILL INVENTORY PROJECT

Bob Radcliffe has re-activated this Ben Franklin Society (BFS) Project and is seeking Volunteers to help with Field Inventory and NC Archive Report Preparation and Filing

Preparatory work began in December 2018, with a visit to NCDCCR in Raleigh, to meet new Archaeology Site Registrar - Rosie Blewitt-Golsch. A Prototype Mill Site filing process has been developed that now enables us to proceed and finally accomplish the goals of this Project that Bob started in 2008.

We successfully completed our first Archaeological Site Filing on December 11, 2018. The **WHITAKER MILL on Lynch Creek** was assigned the Site-ID **31FK165**. Each Site is assigned a permanent Site-ID by the OSA Site Registrar. To download a copy of this .PDF Site Report, use the following embedded link.

WHITAKER MILL on Lynch Creek

We submitted NINE Site Locations to receive permanent NC assigned Site-ID numbers. PDF Report Filings will follow bringing our submission count to TEN. As we complete and submit Final Reports of each Site, we will post *redacted versions* on our BFS website by SiteName under our PROJECTS / GRIST MILL INVENTORY Menu. Check them out!

Our January Field Trips netted missing GPS Coordinates and Photography so these Site Reports could be finalized. **Contact Bob Radcliffe to register for the Field Trip(s) you want to attend. We will gather at the Lynch Creek Farm Cabin for a quick orientation before departing.**

Our graduated Discount Structure helps offset these costs by rewarding Customers who make larger Purchases: Buy \$10 get 2% OFF; Buy \$15 get 4% OFF; Buy \$20+ get 6% OFF. Thanks for your understanding!
